

E.F.E. new tooling 2019 Volvo Olympian/Palatine I

New tooling from E.F.E. by Bachmann.

The Northern Counties Palatine I bodied Volvo Olympian first entered service with London Central and London General in 1995. The once-fashionable split-level entrances fell foul of low floor access legislation in the Capital and the Olympians were cascaded to other operators outside London. Several early examples are still in service. *Our thanks go to Galloway Coach Travel and Stephenson's of Essex.*

E41001
