

SUNRISE MODELS AND TRANSFERS CATALOGUE 14 - APRIL 2020

In addition to a constantly changing range of 1/76th scale resin bus kits, Sunrise Models and Transfers offers a range of screen printed, waterslide transfers suitable for finishing models of buses and trams in that scale, with just a few items for larger scale models. The range includes items appropriate throughout the last hundred years.

Guidance may be available about liveries/lettering used by some of the bus companies of earlier years – please ask when ordering, if required. As the transfers are designed for a particularly specialised market, most are produced in very limited numbers and may not be repeated when they sell out.

Orders will generally be dispatched within five working days whenever possible, but please allow 21 days before enquiring.

Payment methods –

- 1) by cheque or bankers draft made payable to [George Heaney Ltd.](#)*
- 2) bank transfer to George Heaney Ltd, sort code 09-01-50, account 05005280*
- 3) sterling cash (please send **only** by signed for postal service)*
- 4) PayPal, **by arrangement only***

*For UK transfers orders **up to £20** value,
please add 80p for postage and packing
For UK transfers orders **over £20** value,
please add £2 25p for postage and packing
For non-UK orders please add £1 75p for postage and packing,
unless otherwise agreed*

News of forthcoming Sunrise developments can be found on the

Model Bus Zone website www.modelbuszone.co.uk and also on Facebook at the **Sunrise Models and Transfers** and **Model Bus Scotland** pages.

For those who are not Facebook users, the Sunrise Models and Transfers page can be accessed at www.fb.me/g414af

*This **April 2020** catalogue replaces all previous versions; the contents have been reorganised and there have been many additions since the last issue. Please note that some items have been dropped from the range but others no longer available as single items have been incorporated into new transfer sets listed in the relevant sections. Also, some of the older items are now in short supply.*

All items added since the January 2019 catalogue are shown in red.

Window bills

These are suitable to represent early paper sticker 'route branding' used by most bus operators in the 1920s and 1930s and later by SMT/SBG and other companies to supplement or take the place of 'proper' destinations, right on to the 1990s. Most also suitable for operators who used 'black on white' destination blinds. Sets WB-DS1 to WB-DS8

have names in black on individual 8.75 x 1.75mm white rectangles; sets WB-DS10 and WB-DS11 are similar but with names in blue, as used by Scottish Citylink etc.

27. REGISTRATIONS - PARTS

This series allows creation of individual, authentic registration numbers with minimum cutting out, using just two or three parts.

- For two-letter registrations use one two-letter combination and one or two two-number combination
- For three-letter combinations use one three-letter combination and one number combination.

Two-letter combinations are on individual black 3x1.5mm rectangles; two-number combinations are on individual black 2x1.5mm rectangles. Both three-letter and three-number combinations are on individual black 3.5x1.5mm rectangles.

PLEASE NOTE THAT FOR BEST RESULTS REGISTRATION LETTER AND NUMBER TRANSFERS SHOULD BE TRIMMED CLOSE TO THE BLACK RECTANGLE

Kit 84A	Leyland-bodied Leyland Titan TD5/TD7 highbridge	£44

In most cases, the kits include basic transfers such as lining, badges etc. Other bespoke transfer sets are generally produced for them and sold with the kits if required. Many of these transfer sets are only available with the kits, so are not listed elsewhere in this catalogue. Please ask for details if wanted.

Given that kit production is generally geared to the number pre-ordered, there are usually only a few spare ones left after pre-orders have been met, although occasionally the demand warrants a kit to go into continuous production. So the numbers of most of those listed above as being in stock are likely to be limited, and their availability should be checked when ordering.

Postage and packing for one kit is £4 50p within the UK, sent by Royal Mail Second Class Signed For.

Postage and packing for more than one kit is £7 50p within the UK, sent by Royal Mail Special Delivery.

Please ask for rates for orders outwith the UK.

All postage rates are related to the compensation level available from the postal service concerned, in the event of loss or damage.

42. PROPOSED SUNRISE KITS

Sunrise will be having the following new kits produced, some during 2020. As numbers produced are related closely to the number of pre-orders received, the best way to guarantee getting one is to pre-order it - no payment is needed until the kit is ready, and there is no obligation to take it then. Simply contact Sunrise to say which kit/s you want, and how many, and provide full contact details.

43. PAINTS

Arrangements were reached in October 2019 for Sunrise to acquire the Modelmaster paint business, which would otherwise have been discontinued. At that time, the range of paints available was limited, and since then efforts have been made to expand it. However, the restrictions mentioned under section 41 mean that the sale of paint has also been suspended meantime.
