## BN Brixton

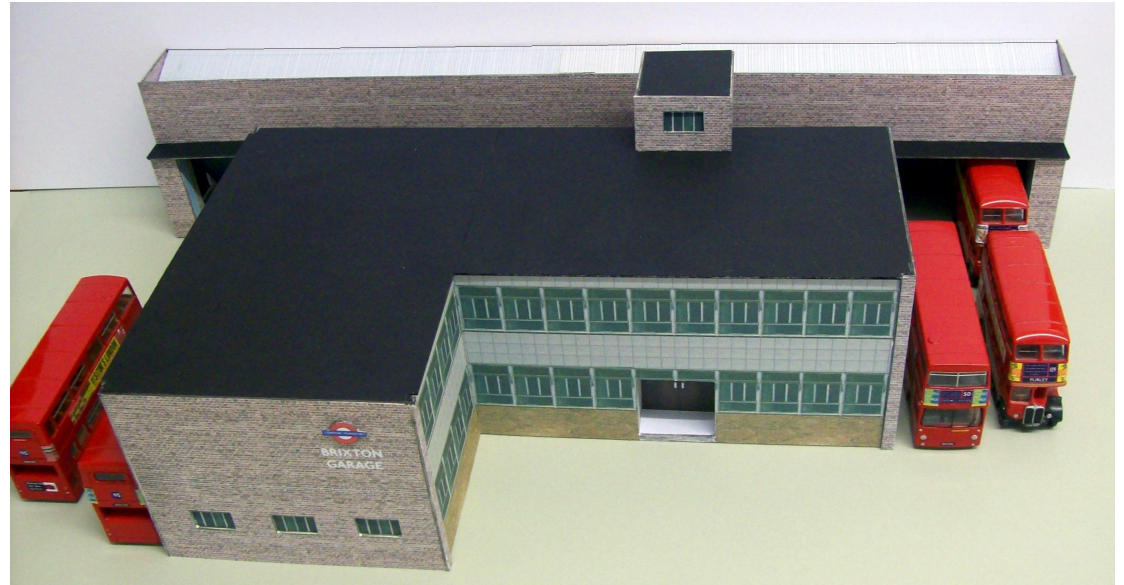

London Transport's Brixton garage replaced the former LCC Telford Avenue tram depot being built on the same site.

Brixton operated the last RTWs in 1966. RTs remained at the garage into the seventies. From 1971 it was one of the first garages to operate DMSs.

In 2005 the last Routemasters in normal service ran from Brixton.

The model comprises the administration block and a low relief garage behind; together measuring approximately 22" x 14".

Photos below show a completed model along with some other scenic items.

Price: £16 including UK postage, from [www.kingswaymodels.com](http://www.kingswaymodels.com)
